make-up features SKIN TYPE RULES

By Amy Lawrenson

'Just because your skin looks good, don't neglect it. Your skin's condition can fluctuate, humidity can make skin feel oilier while cold weather and central heating can dry it out' explains Antonia Burrell. 'Be prepared to tweak your routine according to the time of year'. Elemental Herbology's range, from £16, is focused on preventing the changes in skin caused by the seasons.
